Utah CGP-Closing the Gap Action Plan (Small Group) 2004-2005*

Develop this plan at the beginning of the school year and include a copy with the Results Report due to USOE by June 15, 2005

School: Canyon View District: Iron County School District

Target Group: Students (Usually Seniors) in academic trouble.

Target Group selection is based on the following data/information/school improvement goal: Improve attendance improve study skills, improve academic attitude, and provide student a positive learning experience.

Intended Student Behavior	Identify the Utah CGP Student Outcome or the Desired Result for Student Learning	Guidance Activity(ies) or Intervention(s)	Resources/Staff Development Needed	Evaluation Method How will you measure results? e.g."From sample classrooms of tenth graders	Start/End Dates	Projected # of Students Impacted
Assist "At Risk" (Senior) Canyon View High School Students with improved academic performance.	-Academic Development -Personal and Social Development.	Southern Utah University education department saw a need to give their senior block students an experience in working with the "At Risk" pupil. In cooperation between Southern Utah University and Canyon View High School a program was instituted where a SUU student is assigned a CVHS senior student who is in need of academic assistance. The college student is expected to give a set amount of time in the helping the "At Risk" senior graduate from High School. The college student will be graded on how much "quality time" they spent with their student, was there academic improvement and did the student progress with the tutoring assistance.	-Southern Utah University students and professors. -Canyon View High School administrators, teachers and counselors. -Classrooms at Canyon View High School.	From the 50+ senior students identified as being not on target to graduate, an assessment will be given at the end of the 2004-2005 school year to see if graduation progress was made.	9/2004 thru 5/2005	Approximately 50 Students.

Glenn Smith 12/9/04 12-9-04 Benny Nader

Utah CGP-Closing the Gap Results Report (Small Group) 2004-2005

Due to USOE June 15, 2005: may be submitted in other formats but include all information as required below.

School Canyon View High School

District Iron County School District

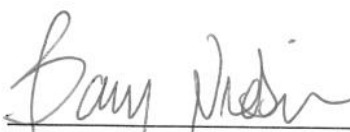

Counselor: Barry Nielsen Connie Wallace Sam Nielsen	Target Group: CVHS "at risk" senior students, in jeopardy of not graduating.	Curriculum and Materials: Provided by Canyon View High School. Southern University "SOAR" students had access to classrooms, subject teachers, counselors (grades, attendance, and credits) and administrators. Permission was obtained from each student's parent or guardian.	Start Date End Date: 9-04 thru 5-05.	Process Date Number of Students Affected: Approximately 55	Perception Data: Pre and post test competency attainment or student data: Comparison of senior students on "at risk" list not to graduate (at the first of the year) compared to the number of those same students graduating at the end of the 04-05 school year.	Results Data: Changes in behavior, grades, attendance, including achievement related data and/or/ skills/competency data: It appears that a substantial number of the identified "at risk" students graduated from Canyon View High School at the end of the 2004- 2005 school year. Although it's hard to put an actual number on how much the "SOAR" remediation tutoring helped approximately % 40 percent of the identified "at risk" students received a diploma.	Implications: What does the data tell you? What can the student do with this now? Canyon View High School anticipates continuing the "SOAR" tutoring program next school year. This year was a learning experience for all participants. Improvements and suggestions will be reviewed and made. Those involved in the "SOAR" program view it as a success.
